Dr. Jerome Shabazz – Executive Director, Overbrook Environmental Education Center

Social Architecture for Resilient & Sustainable Communities

Philadelphia is the sixth largest city in the United States (behind New York City, Los Angeles, Chicago, Houston and Phoenix), with a racially and ethnically diverse population (estimated at 1,567,442, in 2015). According to the city's Health Department, 23.6 percent of Philadelphians rated their health as poor or fair, and those with the poorest health disparities can be tracked by race, ethnic background and zip code. This presentation is about the Overbrook Environmental Education Center's work to demonstrate strategies that promotes healthier, more resilient communities in Philadelphia's vulnerable neighborhoods with the use of sustainable practices

1:00 – 2:15 Workshop Session II - See Workshop Descriptions and Locations

2:15 – 2:35 Break and Exhibits – See Exhibit List

2:35 – 3:50 Workshop Session III - See Workshop Descriptions and Locations

3:50 – 4:00 Closing – Room 108
