Philadelphia Regional Noyce Partnership

presents

Integrating STEM in Everyday Life II

Join pre-service and In-service middle and high school
STEM Teachers in the Philadelphia area
in exploring ways to engage students in socio-scientific STEM –
connecting them to real problems in their communities!

Virtual Conference

Saturday, December 12, 2020

9:00 am – 12:30 pm

Twenty-nine teachers explored this topic in depth during 2019-20. Come hear about their classroom adventures...in person and online... as they engaged their students in solving problems that impact them personally. Find out more about scientific skepticism, STEM modeling and the importance of teaching through multiple perspectives.
